St. Paul, MN 55104

Fire / Disaster Plan

Policy

The home of each client admitted for CareMate Home Health Care, Inc. service will be assessed for adequate safety in the event of a fire, flood, or tornado in order to provide the greatest degree of protection possible.

Procedure

During the initial assessment, the RN will note:

1. entrances / exits to the client's home
2. presence of a basement / cellar
3. most protected room
4. presence of smoke alarms
5. presence of carbon monoxide detectors
6. presence of sprinklers / fire extinguisher
7. presence of fire escape or nearest stair case
8. other features important to the safety of the client.
9. presence of pets
10. instruct client how to dial 911 or use of lifeline to active EMS.
